## OPTIONAL VIEWING AREA

There are many places to see the Macy's Thanksgiving Day Parade. You could join 2.5 million spectators along the parade route and experience sights and sounds of Thanksgiving in NYC. Another option is to sit in the grandstands, although the grandstand seating is very limited. The third option is to experience the Macy's Thanksgiving Day Parade from the warmth and comfort of the indoor-viewing area. This special area will be set up just for the Second Time Arounders Friends and Family Group. You'll enjoy views of the Parade Route.

Indoor viewing areas for Thanksgiving Day are very much in demand and therefore are very expensive. We have provided two options to choose from, however, they will be filled on a first-come, first-served basis.
